

Miraflores Rental Shortlist

Executive report · generated 2026-09-24T17:45:06-05:00 · for a couple relocating to Lima

Listings collected 41	Unique after de-duplication 40	Budget-compliant Miraflores matches 26	Stretch (USD 1,001–1,100) 9
---------------------------------	--	---	---------------------------------------

This report ranks 1–2 bedroom apartments for rent inside the Miraflores district at or below USD 1,000 per month, favouring quiet streets, usable space and value. Every figure comes from the listings themselves or from OpenStreetMap; unknown values are shown as UNKNOWN rather than estimated. Listings are not guaranteed to be available — each card states when it was last seen or checked.

1 · Requirements

Criterion	Applied as
Location	Miraflores district only (district outline from OpenStreetMap where coordinates exist). Other districts only in “Near misses”.
Budget	Base rent ≤ USD 1,000 (hard). Preferred: rent + maintenance ≤ USD 1,000 (flagged when exceeded). USD 1,001–1,100 kept separately as “Stretch”.
Size	1 or 2 bedrooms; studios excluded unless the listing itself classifies the unit as 1 bedroom.
Priorities	Quiet (25 pts) · budget (20) · space (20) · daily livability (10) · move-in readiness (8) · building/security (7) · listing quality (10).
Nice to have	Furnished, natural light, security, laundry, balcony, parking — scored as bonuses, never required.

8 · Map

Numbered pins are the Top 10. Positions are as published by the portals; some portals show approximate locations.

9 · Lease observations

- Minimum term stated in 18 of 35 listings; most common: 12 months. A monthly rent is not a month-to-month contract.
- Deposit stated in 15 listings; typical 2 month(s); 0 ask 3 or more.
- Maintenance fee published or included in 32 of 35 listings — where it is missing, the true monthly cost is higher than the rent shown.
- 22 listing(s) are priced in soles; their USD figures are converted at the single rate S/ 3.385 per USD and will move with the exchange rate.

10 · Verification checklist before signing

- **Noise, in person, three times:** weekday rush hour (7:30–9:00 or 18:00–20:00), a weekday evening, and a Friday or Saturday night after 23:00. Stand in the bedroom with windows closed.
- Check which rooms face the street versus the interior; ask if windows are double-glazed.
- Confirm the final rent, maintenance fee, and what is included (water, gas, electricity, internet, arbitrios).
- Confirm minimum term, deposit months, advance months, and the penalty for early exit. Ask for the contract draft in advance.
- Ask which documents a foreign tenant needs (passport / carné de extranjería, proof of income, guarantor).

- Verify the owner or agent: ask for the property registry record (partida registral, SUNARP) and never pay a deposit before visiting.
- Photograph the inventory and existing damage at move-in; attach it to the contract.
- Test water pressure, hot water, mobile signal and internet availability in the unit.

11 · Methodology and limitations

- **Collection.** Portal searches for Miraflores rentals (1–2 bedrooms, $\leq$ USD 1,150 at query time) followed by re-validation of every record after extraction; nothing is trusted from query filters alone.
- **De-duplication.** Listings posted on several portals are grouped by URL, portal id, coordinates, area, price, phone, fuzzy title/description similarity and shared photo ids. One canonical record per group is ranked; all source links are kept.
- **Currency.** Values published in both currencies are kept as published; otherwise converted with one documented rate. The workbook marks every value as PUBLISHED or CALCULATED.
- **Noise estimate.** Distance to major roads and arterials, nightclubs, bar and restaurant clusters (OpenStreetMap) combined with listing text (interior-facing, acoustic windows, avenue view, floor). It is an estimate with a stated confidence and must be confirmed in person.
- **Livability.** Walking distance to supermarket, pharmacy, park, café, public transport and the Malecón. Nightlife is not rewarded.
- **Limits.** Portal data is self-reported by advertisers; some locations are approximate; OpenStreetMap may miss venues; availability changes daily. Fit scores rank options — they do not replace a visit.
