Executive report · generated 2026-09-24T20:49:33-05:00 · 1 USD = S/ 3.385 (BCRP) · prepared for a couple living in Lima

TOP 5 — CONTACT THESE FIRST

The five strongest matches: 1–2 bedrooms, inside Miraflores, rent at or below USD 1,000, ranked for quiet, space and value. Green budget badges mean the all-in monthly cost (rent + maintenance) is within USD 1,000.

2 · Best quiet-space candidates

Ordered by the strength of the quiet evidence first, then by space. Confirm noise in person.

Property	Noise category	Confidence	Area	Est. total
1BR · 71 m² — Miraflores · ID 150746422	POSSIBLY QUIET	low	71 m²	≈ USD 993 (USD 904 rent + S/ 300 maintenance)
1BR · 71 m² — Miraflores · ID 150877601	POSSIBLY QUIET	low	71 m²	≈ USD 984 (USD 886 rent + S/ 330 maintenance)
2BR · 95 m² — Miraflores · ID 150634895	POSSIBLY QUIET	low	95 m²	≈ USD 1,108 (USD 975 rent + S/ 450 maintenance)
2BR · 81 m² — Miraflores · ID 151167358	POSSIBLY QUIET	low	81 m²	≈ USD 1,001 (USD 919 rent + S/ 280 maintenance)
2BR · 65 m² — Malecon Reserva	POSSIBLY QUIET	low	65 m²	≈ USD 1,105 (USD 999 rent + S/ 360 maintenance)

3 · Best value candidates

Lowest rent per m² within their bedroom group (relative to this sample), excluding LIKELY NOISY units.

Property	USD/m²	Value band	Noise category
2BR · 96 m² — Miraflores · ID 151159973	7.7	EXCELLENT_VALUE	NOISE UNCERTAIN
2BR · 95 m² — Miraflores · ID 151011858	9.0	EXCELLENT_VALUE	NOISE UNCERTAIN
2BR · 95 m² — Miraflores · ID 150634895	10.3	EXCELLENT_VALUE	POSSIBLY QUIET
2BR · 81 m² — Miraflores · ID 151167358	11.3	GOOD_VALUE	POSSIBLY QUIET
2BR · 87 m² — Miraflores · ID 151058338	11.4	GOOD_VALUE	NOISE UNCERTAIN

4 · Budget, stretch and borderline

Budget-compliant means rent ≤ USD 1,000 (STRICT_ALL_IN when rent + maintenance is also ≤ USD 1,000; BASE_RENT_COMPLIANT when the total is higher or maintenance is not published). STRETCH listings (USD 1,001–1,100) are shown separately and only make sense if the rent is negotiable.

Property	Rent	Est. total	Fit	Why consider it
2BR · 72 m² — Miraflores · ID 151077958	USD 1,004	USD 1,129	54	72 m² area — good for a 2-bedroom; interior-facing; furnished
2BR · 60 m² — Miraflores · ID 151047414	USD 1,046	USD 1,149	47	building security/controlled access; balcony/terrace

BORDERLINE listings are at most 1% (USD 11) above the USD 1,100 stretch ceiling only because a sales price was converted at the reference rate (for example, a published USD 1,100 that normalises to USD 1,104.87). They are listed for transparency and are **not** budget-compliant and not normal stretch.

Property	Published	Normalised USD	Why it is borderline
1BR · 93 m² — Miraflores · ID 150439988	S/ 3,740 / USD 1,100	USD 1,104.87	normalised rent USD 1,104.87 is 0.4% above the USD 1,100 stretch ceiling — not budget-compliant

5 · Foreign-tenant practicality

Level	Listings	Meaning
HIGH	0	the listing explicitly welcomes foreigners, passports or corporate leases
MEDIUM	1	practical signals only (temporary stays, no guarantor, English listing, furnished + utilities)
POTENTIAL_FRICTION	0	asks for a Peruvian guarantor, carné de extranjería or DNI, or excludes foreigners
UNKNOWN	24	the listing says nothing about it — the normal case, not a penalty

Where a listing does not state its requirements, confirm before visiting: passport acceptance; whether a carné de extranjería is required; proof of income; guarantor (aval); deposit; and minimum lease period. UNKNOWN is never scored as a negative.

6 · Map

No listing in the shortlist has a reliable (building-level) position, so no map is drawn rather than a misleading one. 2 listing(s) have a street-level position only; all others give just the district or zone. Ask each landlord for the exact address.

Only building-level positions are drawn. Street-level and district-only locations are not shown as points.

7 · Lease observations

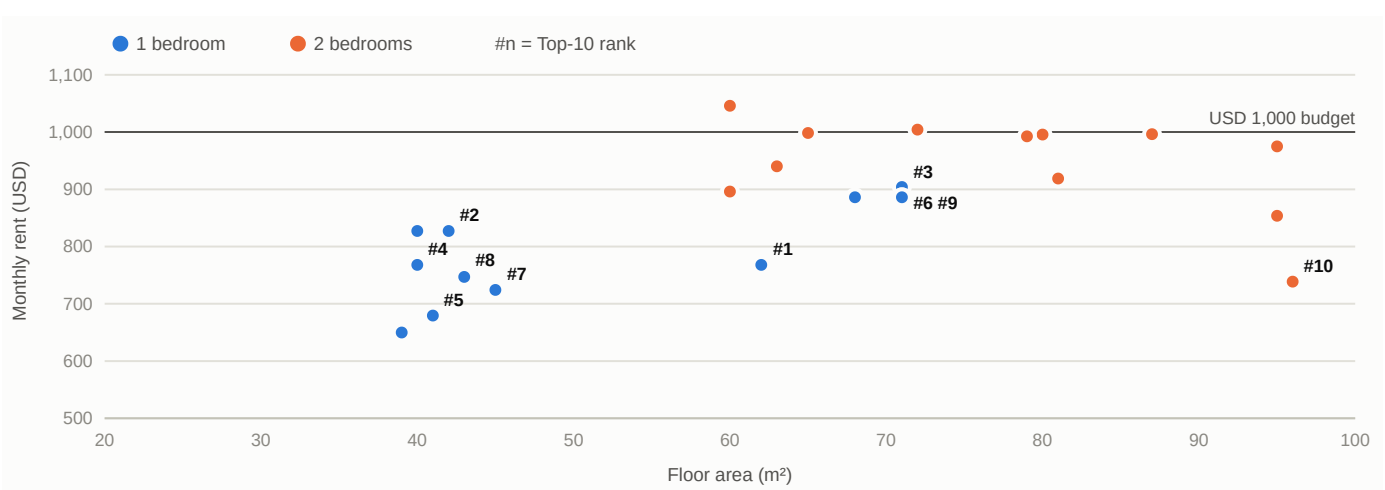

- Minimum term stated in 12 of 25 listings; most common: 12 months.
- Deposit stated in 12 listings; typical 2 month(s).
- Maintenance fee published in 23 of 25 listings — where it is missing, the true monthly cost is higher than the rent shown.
- 25 of 25 listings are priced in soles; their USD figures use the single rate S/ 3.385 per USD and will move with the exchange rate.
- 2 listing(s) show a portal USD figure more than 5% away from S/ ÷ rate (CURRENCY_CONVERSION_MISMATCH): agree the currency and amount in writing.

8 · Verification checklist before signing

- **Noise, in person, three times:** weekday rush hour (7:30–9:00 or 18:00–20:00), a weekday evening, and a Friday or Saturday night after 23:00. Stand in the bedroom with the windows closed.
- Check which rooms face the street and which face the interior; ask whether the windows are double-glazed.
- Confirm the final rent, the maintenance fee and what is included (water, gas, electricity, internet, arbitrios).
- Confirm the minimum term, deposit and advance months, and the penalty for leaving early. Ask for the contract draft in advance.
- Foreign-tenant documents: passport accepted? carné de extranjería required? proof of income? guarantor (aval)?
- Verify the owner or agent (property registry record, *partida registral*, SUNARP) and never pay a deposit before visiting.
- Photograph the inventory and any existing damage at move-in and attach it to the contract.
- Test water pressure, hot water, mobile signal and internet availability in the unit.

9 · Sources, market snapshot and methodology

Source	Status	Records
Urbania	APPROVED	20
Adondevivir	APPROVED	20
Mercado Libre Inmuebles Perú	REJECTED	0
Manual import (agency sites, other portals)	SKIPPED	0

Each dot is one unique listing (cross-posts merged). Relative to this sample only — not an official valuation.

- **Collection.** Live searches on Urbania and Adondevivir (via Apify, free plan: at most 10 records per search, list-level data only — no detail pages), one search per bedroom count (1 and 2 bedrooms), rent ≤ USD 1,150 at query time. Every record is re-validated afterwards. Mercado Libre was not usable in this run (bot challenge; never bypassed). 40 records collected; 27 unique properties after merging cross-posts.
- **Currency.** One reference rate for every conversion: 1 USD = S/ 3.385 (BCRP series PD04640PD (SBS sell rate), period 23.Set.26 — <https://estadisticas.bcrp.gob.pe/estadisticas/series/api/PD04640PD/json/2026-09-11/2026-09-25/ing> (2026-09-24T20:36:52-05:00)). Listings priced in soles are converted with it; the portal's own USD figure is kept separately and flagged when it differs by more than 5%.
- **Budget classes.** STRICT_ALL_IN = rent + known maintenance ≤ USD 1,000 · BASE_RENT_COMPLIANT = rent ≤ USD 1,000 but the total is higher or unknown · STRETCH = rent USD 1,001–1,100 · BORDERLINE = at most 1% (USD 11) above USD 1,100 after currency conversion — shown for transparency, never budget-compliant.
- **Noise.** Where a reliable position exists, distance to major roads, nightclubs and bar clusters (OpenStreetMap) is combined with listing text. Without a position, only listing text is used and confidence is LOW. Categories: LIKELY QUIET (low risk, medium/high confidence) · POSSIBLY QUIET (positive listing wording only) · NOISE UNCERTAIN (no or mixed evidence) · LIKELY NOISY (on a major arterial, faces an avenue, or high risk with reliable location). Low-confidence evidence never pushes an otherwise good apartment down the ranking.
- **Location.** The free plan returns no coordinates. Positions were derived only from a specific street address written in the listing (street + number, or street + block); district or zone names alone were never geocoded. 2 of 27 unique properties have a position, 0 of them building-level.
- **De-duplication.** The same flat posted on both portals is merged only with an identity anchor (the same photo file, ID or address) plus matching details; matching price, area and maintenance alone never merge two listings.
- **Limits.** Advertiser-reported data; no phone numbers, publication dates or exact addresses on the free plan (contact via each listing); availability changes daily and is never guaranteed. Scores rank options — they do not replace a visit.
